

Jott Networks, Inc.
300 East Pike St., Suite 2000
Seattle, WA 98122

Contact: Doug Aley, 206-254-1364, doug@jottnetworks.com

Summary of service:

Jott Networks owns and operates Jott, a communication and organization service which converts voice to text. With one phone call within the U.S. to 866-JOTT-123, or in Canada to the appropriate local access number, consumers can send emails and text messages to contacts, set reminders, post to web services such as Google™ Calendar and Blogger™, and manage their to-do lists.

Investors and Funding:

The privately held company has completed one round of institutional financing. Backers include some of the world's foremost names in venture-capital:

- Bain Capital Ventures (www.baincapital.com)
- Draper Richards (www.draperrichards.com)
- Ackerley Partners (www.ackerleypartners.com)
- Atomico Investments (www.atomicoinvestments.com)

Founders:

John Pollard was an early employee at Expedia which he spun out of Microsoft and went public. Prior to Jott, he was a Senior Director in the Mobile Devices group at Microsoft. His teams have won significant industry awards, including Outstanding Achievement in Digital Marketing, Best European eCommerce Site, and Best of CES. He holds an MBA from the University of Michigan, and a BA from Kenyon College

Shreedhar Madhavapeddi led the successful effort to connect MSM's IM network to Yahoo! Messenger, Vodafone Live!, Enterprise IM networks and Mobile text messaging networks worldwide. Shree has two patents and six patents pending (all in the field of computer systems & network applications), and co-invented Deficit Round Robin (DRR), a scheduling algorithm for data networks currently used by Cisco Systems, Juniper Networks and others. He holds an M.S. from Washington University, and a B. Tech from BITS, Pilani, India, both in Computer Science.
